North Humberside Motor Trades GTA is a Charity and Group Training Association representing the views of around 100 employers in the Hull and East Riding of Yorkshire Region.

We believe the content of these qualifications deliver the core specialist knowledge and skills required by the automotive retail sector, and therefore support the needs of employers within the industry by creating the basis of high quality, skilled work force. These qualifications will provide students, aged 16 and over, with an advantage when applying for related jobs, apprenticeships, and other further or higher level qualifications related to the sector.

In our opinion and the opinion of our members and associate members, there is a definite need for these qualifications to be made available on the Key Stage 5 performance tables to allow learners interested in a career in the sector to develop, progress and in the future, secure a job role.

Yours sincerely

David Willoughby  
Director of Training

Mark Crawford
